Minion Scheduling Policy — Version 2.0

1. Purpose

Version 2.0 shortens minion shifts and raises the night bonus after the minion union pointed out that being chased by a platypus is cardio and cardio is tiring.

2. Scope

This policy applies to all minions, henchpeople, Norm-bots and temporary goons hired for large schemes.

3. Shifts

3.1 Shift Length. Minion shifts are now 7 hours long, down from 8 hours, with a 30-minute lunch and two breaks for menacing glances.

3.2 Night Shift. At least two minions must guard the lair overnight. The night-shift bonus rises to 20 percent, and the nightlight is now shaped like the company logo.

4. Shift Swaps

4.1 Swap Requests. Minions may swap shifts with each other if both agree and the swap is posted on the scheduling board at least 48 hours in advance.

4.2 Robot Swaps. Robots may not swap shifts with humans, because Norm keeps volunteering for every shift.

5. Scheme Days

On days when a major scheme is active, all minions are scheduled for a full shift and paid overtime for any hour spent being chased.

6. Acknowledgment

Clocking in for any shift constitutes acknowledgment of this policy.
